Mohawk Digital Synthetic Premium Polyester | Mill: Mohawk

Synthetic Premium Polyester

High performance sheet with high performance top coat. Perfect for situations where moisture or wear are of concern. Built to last, yet flexible like paper. Items for dry toner presses with exceptional opacity. **Typical uses:** book covers, luggage tags, shelf sliders, plant stakes, menus, wall charts, wrist bands and i.d. cards.

Mohawk Dimensionals | Mill: Mohawk

Micro-Perforated and Scored Product for Short Run Digital Printing

Printed packaging finishing and assembly can be troublesome. If you need to print a small quantity of boxes, the die is probably more expensive than the rest of the project combined. Mohawk Dimensionals are pre-perfed and pre-scored flat sheets engineered to run in color digital production presses. The product allows you to print your package designs in smaller quantities, assemble them quickly, and eliminates time-intensive and costly finishing operations. You can even print, store flat (for space savings) and assemble as needed. Great for variable data projects, too.

BOX | Cube Box 4" x 4" x 4"

Cube Box Micro-Perforated and Scored

Zapco Die-Cuts | Mill: Zapco

Scored Product for Short Run Digital Printing

If you need to print a small quantity of pocket folders for a special presentation, utilizing this product will save time and expense on the project. Pre-scored flat sheet engineered to run in color digital production presses and excellent choice for variable data projects. You can print your designs in smaller quantities, assemble them quickly, and eliminate time-intensive and costly finishing operations. You can even print, store flat (for space savings) and assemble as needed.

Pocket Folder | 9" x 12"

Pocket Folder, Two Part Set, 1 up, Scored with Adhesive Strip Pockets

Paper Stock: 100 Cover, Futura, Gloss, White (94 Bright)

- FSC® Certified

Mohawk Dimensionals | Mill: Mohawk

Micro-Perforated and Scored Product for Short Run Digital Printing

Table tents for special presentations, restaurant, retail or advertising use. This product saves you time and expense on your project. Mohawk Dimensionals are pre-perfed and pre-scored flat sheets engineered to run in color digital production presses. They allow you to print your designs in smaller quantities, assemble them quickly, and eliminates time-intensive and costly finishing operations. You can even print, store flat (for space savings) and assemble as needed. Great for variable data projects, too.

Mohawk Digital Vinyl Pressure Sensitive | Mill: Mohawk

White Vinyl Pressure Sensitive Digital

Mohawk Pressure Sensitive products are an excellent options for labels and signage. Their thin release liner improves runnability and dimensional stability. They have a release edge of 1/16 inch on all items to minimize risk of adhesive ooze on press. Typical uses: hazard labels, outdoor signs, industrial labels, horticultural labels and display signs.
